TESTIMONIALS

Erika Keschner "Leena's session helped me to understand what I was not seeing in my life and what was going on within me. The environment was relaxing, comfortable and supportive and Leena was incredibly sensitive and understanding. The activity was interesting as you looked at the same questions from different points of view. It encouraged positive thinking and recognising the answers that are inside you and just need to be revealed. It gave me confidence to trust my own feelings. A lovely experience."

Rob Lycett "I suffer from an anxiety disorder and was initially quite unsure as to whether the session would be too much for me. Leena created a safe environment for contemplation and discussion which was very supportive. She guided the group with great sensitivity and the Points of You session was well organised and incredibly useful to me. It helped me to identify positive thoughts and feelings. Using the image and phrase cards allowed different readings of my question to emerge within the group, which enriched my own experience. I never imagined that I could feel so comfortable in a group session like this and would recommend Leena's workshop."
